## COMPILERS NOTES:

The days of the few choices of being gay, straight, and bi are gone. Individuals are tapping into their authentic selves and realizing that there is an entire spectrum of sexual identities. The LGBTQIA Wiki lists 525 different sexual orientation terms. And still more are being created. Many of them have their own pride flags and their own commemorative days. (Please also see the dictionary of Gender Identities and LGBTQIA+ Commemorative Days)

1. For the sake of simplicity, they/ them/theirs are used throughout this dictionary regardless of the identity being defined.
2. The information in this document was compiled from multiple sources. The intention is to give a brief definition of each term. For more in depth information on any identity, check out the following links:
